

A high-angle, wide shot of a modern commercial building's interior. The space is characterized by a large, multi-paned skylight at the top, which allows natural light to filter through, creating a bright and airy atmosphere. The walls are white with vertical ribbing, and the floor is made of light-colored tiles. In the foreground, a round wooden table with a dark, fringed mat on top holds a piece of driftwood. The overall design is clean, minimalist, and emphasizes natural light and materials.

**If it's Commercial,  
VELUX can add the WOW!**

Openable VELUX skylights provide natural light and fresh air at the Bridestowe Lavender Farm in Tasmania. The farm's retail products present better in natural light.

Creative use of VELUX skylights add the WOW to the Halls Head shopping centre in Mandurah, Western Australia.

McCarthy Homes in Brisbane use VELUX skylights to inspire clients in the selection room. Natural light is the best light to view colours in.

# Retail

VELUX skylights do a world of good for retailers around Australia. Ambience, fresh air and natural light are a winning combination for retailers wanting to create a point of difference. They save on the power bills too...

VELUX dealers know that using the product sells the product.

Skylights greet guests and staff at the VELUX office in Sydney.

McCarthy Homes use VELUX skylights as a main feature in their head office.

VELUX skylights bring natural light, fresh air and a sense of space to small offices.

**Office**  
Natural light and fresh air come at a premium in most office environments, although the benefits are obvious. When staff feel better, they are more productive and have fewer days off sick. And, of course, lower power consumption is better for the environment.

Research shows that natural light boosts productivity.

Most days there's no need to turn on the lights in Hobart Airport's administration building.

**VELUX®**

Fresh air and natural light in abundance lift spirits at the Hawthorn Men's Shed in Melbourne.

VELUX skylights provide the WOW in the Calypso Bay Resident's Leisure Club.

VELUX skylights are used throughout Maclean's sports centre.

## Community

The benefits of VELUX skylights in a community setting are as diverse as the settings they appear in. A sports centre saves big money on the power bill, a leisure club uses VELUX as a design feature, a Men's Shed makes clients feel good with natural light and fresh air.

Thanks to 34 VELUX skylights, artificial light is only needed at night time and on the occasional rainy day in Maclean's sports centre in northern New South Wales.

More than a metre of snow can fall in a single night and wind speeds can exceed 200 kph at Mount Hotham in Victoria. The Arlberg Snow Resort's VELUX skylights are made for it.

**VELUX®**

## Hospitality

VELUX skylights are perfect for the hospitality and tourism industries. Guests who feel good are more likely to stay longer, come back another time and tell friends and family about their experience. Everybody likes fresh air and natural light...

VELUX skylights add to the ambience at Mountain Culture Beer Co., a craft brewery and restaurant in the Blue Mountains.

Openable VELUX skylights provide light and ventilation at Bridestowe Lavender Farm's cafe. No air conditioning is needed.

Passengers and staff at Armidale Airport have a clear view to the skies through VELUX skylights.

80 VELUX skylights bring natural light to boost creativity for students at the National Art School, located at the old Darlinghurst Gaol in Sydney.

VELUX skylights keep temperatures down and spirits up in Bridestowe Lavender Farm's warehouse.

Openable VELUX skylights with blinds control the climate in a historical building from 1904, built as a cool room for the Bathurst food and vegetable market.

## More

Manufacturing, warehousing, education...there are many more commercial applications for VELUX skylights. Each user has their own story but a wish to reduce power bills, increase productivity and protect the environment are common traits.

Natural light makes learning easier.

In the manufacturing industries, reduced power bills and increased productivity are key drivers for the use of VELUX skylights.

# VELUX is Made for Australia

VELUX is the only skylight that is CodeMark® certified. You won't have to spend a second verifying that VELUX products comply with the National Construction Code of Australia — the CodeMark® certificate is legally binding evidence of compliance.

VELUX skylights have literally passed every test in the book...

\* Custom-made flashing required. Opening skylights tested in closed position. Additional mesh protection may be required for opening apertures.  
† Cyclone test not performed with screws provided, requires #8 roofing screws.

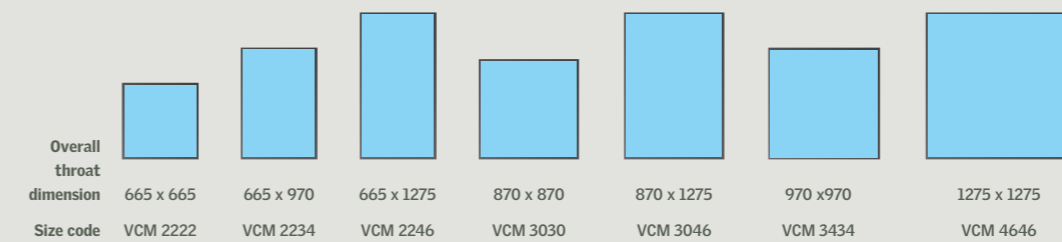

## Products & Sizes

Low Pitch Skylights — Perfect for commercial applications...

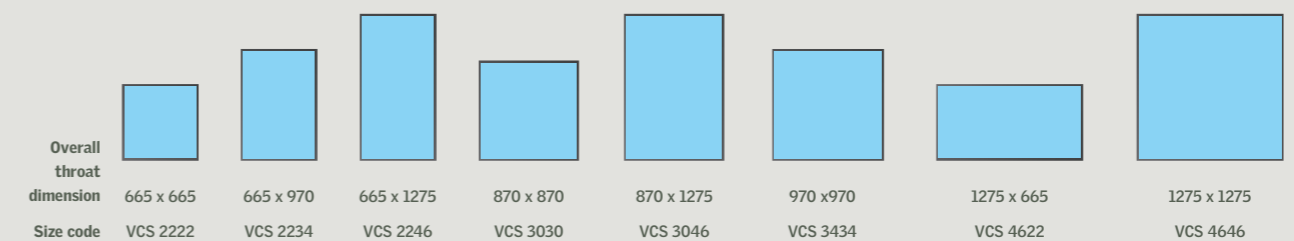

### Fixed Skylights — FCM

### Manual Skylights — VCM

### Solar Powered Skylights — VCS

All sizes in mm. Width x Height. Manual and solar powered skylights can only be installed as per orientation depicted above. Custom-made flashing required (not provided by VELUX). VELUX recommends flat roof skylights are installed with a slight pitch (e.g. 3°-5°) to help reduce condensation build-up and water ponding on the glass.
